

Klaus A. Miczek is the Moses Hunt Professor of Psychology, Psychiatry, Pharmacology and Neuroscience, and is one of the directors of the Neuroscience Research Center at Tufts University.

He published some 230 research journal articles, more than 50 reviews and edited 24 volumes on psychopharmacological research concerning brain mechanisms of aggression, anxiety, social stress and abuse of alcohol and other drugs.

He has served on research review committees for the National Institute on Drug Abuse, National Institute on Mental Health, National Institute on Alcoholism and Alcohol Abuse, and National Center for Research Resources and was a member of the National Academy of Science panel on "Understanding and Preventing Violence" (1989-1992) as well as its ILAR/NRC panel on the "Psychological Well-being of Primates."

Moreover, he is the Coordinating and Principal Editor of *Psychopharmacology* since 1992, and serves on the editorial board of half a dozen other journals in this area.

In addition, he was the president of the Division of Psychopharmacology, as well as of the Behavioral Pharmacology Society, and chaired the Committee on Animals in Research and Ethics of the American Psychology Association.

Prof. Miczek has received numerous prizes including the Solvay Duphar Award of the Division of Psychopharmacology and Substance Abuse of the American Psychological Association, a MERIT award from NIAAA, Silver Medals of the Charles University (Czech Republic).

In 1997, the president of the Federal Republic of Germany bestowed the Knight's Cross of the Order of Merit on him. Dr. Miczek was named the Boerhaave professor at the medical faculty of Leiden University (Netherlands) and was twice Japan International Science & Technology Fellow at the University of Tokyo and Tsukuba. He was visiting professor at La Sapienza University in Rome, the Charles University in Prague and at the University of Tuebingen (Germany).

In 2006, Tufts University recognized Dr. Miczek with the Distinguished Scholar Award, and he was elected fellow in the American Association for the Advancement of Science.

In 2007, the European Behavioural Pharmacology Society presented him with the Distinguished Achievement Award. He is a member of the Faculty of 1000 Prime Behavioral Neuroscience. He was originally educated in Berlin (Germany) and received his Ph.D. in Biopsychology from the University of Chicago.
